Welcome to Aarmr Sports!

For over a decade, Aarmr Sports has been dedicated to providing the highest quality air weapons that deliver unparalleled accuracy, reliability, and performance with minimal maintenance.

With a network of over 1,200 dealers across India, we are proud to offer exceptional customer service and support to our valued customers.

TECHNOLOGY

RIGOROUS TESTING & QUALITY CONTROL

Multiple Test Firings:

Our airguns undergo extensive test firings to ensure reliability and performance under various conditions.

Quality Control Protocols:

We implement thorough quality control protocols to maintain the highest standards in every product we manufacture.

ADVANCED MANUFACTURING TECHNOLOGY

Cutting-Edge Techniques:

We incorporate state-of-the-art automatic and aerospace laser technology in our manufacturing process, ensuring precision and consistency.

Accuracy:

Our manufacturing processes are seamlessly integrated to produce airguns that meet our stringent standards for accuracy with superior rifle barrels.

DURABLE & RELIABLE PERFORMANCE

Extreme Condition Endurance:

Our airguns are designed to perform reliably in scorching desert heat or freezing Himalayan cold without missing a beat.

Rugged Build:

Engineered to endure tough conditions and stand the test of time, these no frill airguns are no-nonsense tools for serious enthusiasts.

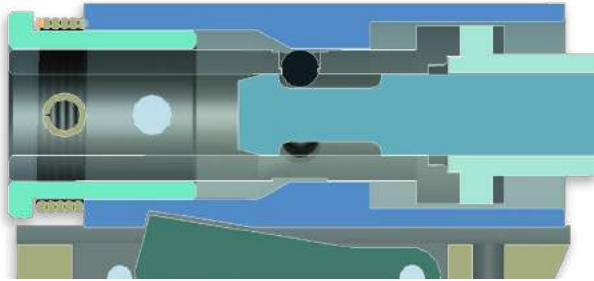

SUPERIOR TRIGGER & COCKING MECHANISM

Light Trigger Pull:

Boasting an incredibly light trigger pull, our airguns offer a smooth shooting experience. Adjustable from 400g to 2Kg.

Modified Locking Mechanism:

Equipped with a modified classic 3-ball locking mechanism for enhanced performance and safety.

HIGH VELOCITY WITH MINIMAL EFFORT

Efficient Cocking:

Requiring a mere 14.0 kg of cocking effort, our airguns achieve velocities surpassing 1150 fps with lead free pellets, making them both powerful and user-friendly.

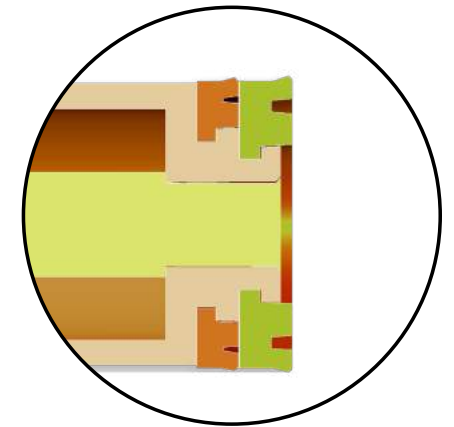

INNOVATIVE DESIGN FEATURES

Enhanced Safety:

Infused with Indian ingenuity, our designs provide an additional safety factor against mechanical issues and include sufficient material weight for restoration to original specifications after extensive use.

Dual Sealing System:

Our airguns feature an exclusive dual sealing system in the compression chamber to withstand high pressure from a robust spring to produce extreme pressure.

HURRICANE SERIES

Aarmr Sports offers two exceptional air rifles under the Hurricane series: the **Hurricane Xtreme** and **Hurricane Model 20**.

Both models are designed with precision and durability in mind, featuring advanced safety mechanisms and high-quality materials.

Deluxe Kit

- Adjustable cheek rest for personalized comfort.
- Adjustable stock length spacers.
- Over grip for a softer hold and improved accuracy.

POWER SOURCE: Dual sealing system with spring piston.

STOCK MATERIAL: Glass filled Nylon-66, weather resistant. AR Style Pistol Grip

RECOIL PAD: Nylon Absorbers of 2.5cm width for enhanced comfort during use.

SLUG STORAGE: Spring-loaded cavity in the stock to store over 50 pellets.

The primary difference between the two lies in their muzzle velocity and specific features tailored for different shooting experiences.
